

VITAL

ADVICE ON BACK
DISEASE (IVDD) FOR
DACHSHUND OWNERS

V

VET - See your vet urgently for an examination (and pain relief, if needed)

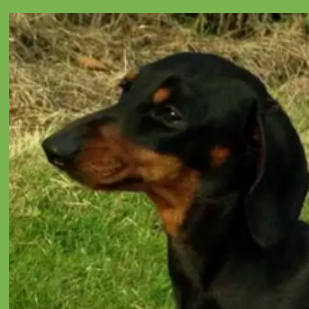

I

INVESTIGATE - for diagnosis, your vet may refer your dog for an MRI scan

T

TREATMENT is *conservative (non-surgical) OR surgery*
Discuss options with your vet, based on the diagnosis

A

AVOID risks during treatment and recovery
No running, jumping, stairs, rough play, ball play or slippery floors.
